DETAILED ACTION

1. This office action is a response the petition filed on 10/17/2003.
2. The petition is granted on 1/28/2004.

Examiner's Comment

3. Upon further consideration, examiner hereby withdraws the last office action of restriction requirement and non-compliance in Paper No. 7 and 9. In view of the request for consideration (Paper No. 10), the restriction requirement and non-compliance in Paper No. 7 and 9 are hereby withdrawn.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-31 and 43-50, drawn to a method for reducing corrosion of a head element during rework operations, classified in class 29, subclass 603.03.
 - II. Claims 32-42 and 51-63, drawn to the improvement and the subcombination, classified in class 360, subclass 235.1.

The inventions are distinct, each from the other because of the following reasons:

5. Inventions Group I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process

Art Unit: 3729

(MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process such as without processes of placing the head element into a container and transporting the container.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and their different classification, restriction for examination purposes as indicated is proper.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
